

Welcome to Sherwood Connector Co.,Ltd.

We specialise in the manufacture and resale of connectors.

We manufacture small to medium volume batches in our Taiwan plant and higher Volume orders in China.

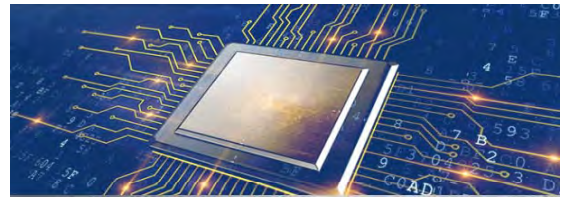

We have the capability to assemble and test complete electronic assemblies and welcome the opportunity to work with our customers at the design stage of new projects where we can advise on sourcing and economic manufacturing.

We can also tool and manufacture new connectors, die castings and plastic mouldings using the latest 3D modelling capabilities and tooling available in the Far East.
